Sachet Filling & Impregnated Wipes

Design Plus has a well deserved reputation as a market leader in the manufacture of both four side seal & die cut sachets. Working together with both printers & laminate suppliers we can offer our customers unique solutions for their ever evolving requirements.

Specialist Filing

At Design Plus we pride ourselves in being at the forefront of new developments in materials & processes. Continued investment in equipment has allowed us to become one of a few companies pioneering the use of new Technologies which including water soluble films, shaped sachets, profiled fills & peelable laminates.

Tube and Bottle Filling

As a natural extension of our sachet production we can also offer tube and bottle filling & labelling from everything from Cosmetics to Automotive compounds. With the flexibility that our Norden tube fillers offer we can deliver anything from short runs through to continuous high volume production.

Contract Packaging

To complement our core manufacturing we also offer a range of contract packing services for customers who require anything from simple packing, help with design inception, right through to POS & shelf ready products.

Elemis Choose Design Plus ..

Elemis, as a leading luxury Spa and skincare brand have always understood the benefits of product sampling, choosing sachets as the most effect method of testing new products into the market place.

Working with Design Plus they now have a “one stop shop” for all their sachets requirements from worldwide sampling campaigns, retail products & gifts right through to the production of sachets for use in their own Professional Spa's.
